RG104 E-1 Box 123 Jan-June 1881

Treasury Department,

OFFICE OF THE DIRECTOR OF THE MINT,

Washington, D. C., February 4, 1881

Sir:

The Department is frequently in the receipt of inquiries relative to the number of Silver dollars struck in 1878, on which the eagle had eight tail feathers.

In order that I may be enabled to correctly reply, please inform me the date of the change in the die and the approximate number of pieces struck before the change was made. My impression is that the first dies sent to the Western Mints bore eight feathers also.

Very respectfully

Horatio C. Burchard

Director

Hon A. Loudon Snowden

Supt. Mint U.S. Phila.
